DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 14 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 14 and 24 have been amended to include the following limitation:

(b) or, switching the referred packet to the appropriate output port according to a certain property of the referring packet;

However, it is not clear that the above limitation is described in the specification. Neither Figures 15 nor 16 appear to show that the referred packet is switched according to the certain property of the referring packet. Figure 15 shows the referring packet being switched and Figure 16 shows the use of an index by a referring packet.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 26, line 8, it is not clear what is meant by "special treatment" since it is undefined in the claim and is not described in the specification.

Art Unit: 2662

Claim Objections

5. Claim 9 is objected to because of the following informalities: Claim 9 is incomplete since it ends with a semi-colon, rather than a period. Appropriate correction is required.

Allowable Subject Matter

6. Claims 8-13, 15-20 and 22 are allowed.

7. Claim 26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
